

# Profiles with Expanded Temperature Scale

Test 70, July 2002

Test: 70\_ft View: CAL  
Close Up of OBC Temperature (K) by Entrance Ap. No.

Test 264, April 2014

Test: 264\_ft View: CAL  
Close Up of OBC Temperature (K) by Entrance Ap. No.

- Vertical blue lines define the limits of the normal calibration footprint
- Curvature within the limits probably indicate gradients within the OBC
- Some difference seen in the profiles, 2002 to 2014
